

We're Invested in Your Success

Link-Belt® and Syntron® Today: April 2018

Featured Product: Syntron® Vibratory Screens

The #1 name in vibratory feeders also provides vibratory screens.

From coal to cement

to food processing, Syntron® Vibratory Screens are designed for fine particle separation down to 60 mesh. Large capacity horizontal and inclined screens are available in single, double deck, and triple deck formats. Dust-tight enclosures allow processing of dusty materials without danger to personnel or equipment. Screens are also available in stainless steel for highly corrosive applications. Call us today at 800.356.4898. Find out more about [Syntron Vibratory Screens here](#).

VIP Pass for Powder & Bulk Solids

Visit us at the Powder & Bulk Solids Conference & Exhibition, April 24-26, 2018, Rosemont, IL, Booth 2515. If you have not registered yet, do so today using the SMH promo code "Special" to receive an expo pass and 20% off an all-access pass! **Register now**, then stop by our booth to speak with one of our sales engineers.

Problem: Corrosion

Solution: Composite Idlers by Link®-Belt

Is corrosion eating away at your profits?

Do you need an idler roll for use in a corrosive and abrasive environment to help extend the life of your conveyor belt? The Link-Belt® Composite Idler Roll provides superior resistance to a broad range of chemicals, such as acid, alkali, and salt spray. The material is 75% lighter than steel and 30% lighter than aluminum, making it easy to install and maintain. The polyurethane resin also resists material build-up on the surface of the rolls and helps extend belt life. Find out more about the [Link-Belt Composite Idler Rolls](#).

SMH University

We're gearing up now for the April SMH University with a full roster. The next University will be August 20-22, 2018 and registration is now open. For more information, see our [Events Calendar](#).

Applications Focus: Lime

These Syntron® feeders are hard at work in Graymont Lime in Superior, WI. You can also find Syntron Vibratory Feeders delivering sand and dolomite (lime) mixtures to furnace conveyors for the production of assorted brown glass bottles. Find out more about [glass applications on our web site](#). Or contact one of our vibratory equipment application engineers: Email [Prentiss Bennett](#) or [Dennis Bazy](#) or [Evan Ellis](#).

Find Us on Social Media

Keep up to date with industry news, product information, application articles, tutorials, and more on social media. Now you can find us on [Instagram](#), as well as [LinkedIn](#) and [Facebook](#). Find us, like us, share us!

Employee Spotlight

We are pleased to announce the addition of **Alejandro (Ale) Sanchez** to our Inside Sales team. Ale will be the contact for customers in MI, WI, IL, IN & OH. He is married to Nikki and they have two beautiful young children, Penny and Alex. Ale enjoys attending Ole Miss sporting events, as well as aerial photography and videography using his drone. Please welcome Ale to the SMH family. Contact Ale at 800.356.4898 or

alejandro.sanchez@syntronmh.com.
