

We're Invested in Your Success

Link-Belt® and Syntron® Today: March 2018

Featured Product: RVSS Screen by Syntron®

With over 85 years of vibration technology experience, Syntron Material Handling has long been an industry leader in vibrating screens. We offer horizontal and inclined screens for aggregate, cement, chemical processing, mining, and food related industries. We're pleased to introduce the RVSS Screen by Syntron®. The unit is constructed of 304 stainless steel and utilizes a 6-pole motor to dewater, classify smaller particle product, and drive higher particle acceleration for screening efficiency. Plus, it's WASH DOWN READY. Call us today at 1.800.356.4898. Find out more about the RVSS Screen in our new **Aggregates Brochure**. For more info on our entire line of screening feeders and screens, check out our **web site**.

What's New at AGG1

The SMH team was kept busy at AGG1 this month showing our newest products. The redesigned **Link-Belt® CEMA C rated ball bearing idlers** are maintenance-free, in stock, and value-priced. The **SYNTRO-FLO cone-crusher loading feeder** is a mechanical two-mass direct drive vibratory feeder system with an engineered discharge uniquely designed for equal distribution of products. Call today to talk to one of our sales or application engineers, 1.800.356.4898 or **contact us online**.

VIP Pass for The Powder Show

Be our guest at the Powder & Bulk Solids Show, April 24-26, 2018, Rosemont, IL. Visit us in Booth 2515. Use the special SMH promo code when you register and receive a complimentary VIP expo pass and 20% off your all-access pass.

Register now, then stop by our booth to speak with one of our sales engineers.

Applications: Fracking

Did you know SMH offers products for the hydraulic fracturing process known as “fracking?” This type of process is used to produce petroleum fluids, such as oil, natural gas, and natural gas liquids from rock units that lack adequate pore space for the fluids to flow to a well. Syntron Material Handling recently developed this

Fiber Auger Delivery System which includes a flared hopper with a cut and folded auger and trough. It’s used to process the sand inside the delivery and mixing operation. Find out more about our [screw conveyor products](#) or call us today for more information at 1.800.356.4898

 Rosemont, IL

Link-Belt® Problem Solver

Problem: Is corrosion eating away at your profits? Do you need an idler roll for use in a corrosive

and abrasive environment to help extend your conveyor belt life?

Solution: The Link-Belt Composite Idler Roll has superior resistance to a broad range of chemicals such as acid, alkali and salt spray environments with a recommended operating temperature of -40°F to +200°F. The material is 75% lighter than steel and 30% lighter than aluminum which makes this Link-Belt idler easier to install for maintenance and installation personnel. This polyurethane resin also resists material build-up on the surface of the rolls and thereby helps extend your belt life. Find out more about our **Composite Idler Rolls**.

Employee Spotlight

Congratulations to Neil Patterson, our newest Applications Engineer. Neil joined SMH in 2014 as a Mechanical Engineer focusing on the design of our heavy feeders, idlers, screw conveyors, and light industry product lines. Neil played a key role in designing some of our new AGG1 show equipment such

as the Direct Drive Feeder and SYNTRO-FLO Cone Crusher Loading Feeder. Please join us in wishing Neil all the best in his new position. Contact Neil at Neil.Patterson@syntronmh.com or 662.869.7459.

SMH University - Sign Up Now

The next session of SMH University is April 23-25. Sign up now as attendance is limited to the first 25 people. Email [Sheena Woodruff](mailto:Sheena.Woodruff@syntronmh.com). For more information, see our [Events Calendar](#).

About Syntron Material Handling

Syntron Material Handling provides material handling solutions for conveying, feeding, screening, elevating, vibratory flow aids, and mining controls of bulk product. For more information, see <http://www.syntronmh.com>
