

Proven Engineered Products - Complete Material Handling Solutions

Link-Belt® and Syntron® Today: February 2017

Feature: Link-Belt® Retrofits for S-A (Metso) Rolls

All the quality, performance, and durability you have come to trust in a

Link-Belt® C2000 idler roll will now fit directly into Stephens Adamson idler frames. The Link-Belt® C2000 roll delivers extra bearing protection via a high performance external seal and handles a variety of light to medium weight materials for industries such as chemical, pulp and paper, sand and gravel, and food processing. For part number conversion information, download our [Link-Belt/S-A Retrofit datasheet](#).

Applications: Contract Manufacturing

Syntron Material Handling is pleased to announce the launch of our Contract Manufacturing services. An extension of our core product lines and unique fabrication applications, Contract Manufacturing showcases our extensive manufacturing capabilities. Customers like Schlumberger, Husqvarna, and Toyota have been quick to partner with SMH for application-specific Contract Manufacturing solutions. Download the [new brochure](#) or email [Jeremy Carroll](#), Global Product Line Manager, to discuss how SMH can meet your fabrication needs.

Technical Training: Syntron Material Handling University

SMH Distribution and Manufacturer's Representatives are invited to SMH University, April 18-20, 2017. Attendance is limited to the first 25 people and deadline for registration is March 18, 2017. Email [Sheena Woodruff](#) to reserve your space today.

SMH App

A new SMH app for iPad and Android tablets is now available. The app provides quick and easy access to current sales presentations, online data sheets, service manuals, catalogs, videos, new product highlights, contact info, and more. Contact your **Regional Sales Manager** for more information or email **Angie Swain** for details.

Get to Know Our Team

Join us in congratulating **Jeremy Carroll**, SMH's new Global Product Line Manager for Contract Manufacturing and Light Vibratory Equipment. Jeremy has a diverse background that covers production, lean manufacturing, engineering, and product management. With these skills, Jeremy will successfully lead this new product line launch.
