

Proven Engineered Products - Complete Material Handling Solutions

Link-Belt® and Syntron® Today: January 2017

Feature: Engineered Screw Conveyor

Syntron Material Handling supplies several baghouse unit manufacturers with Link-Belt®

screw conveyors to integrate with their collection units. We custom design to their baghouse flange patterns and to the material handled, whether it is combustible, corrosive, or elevated temperatures. Our applications specialist and engineering team take the concept to a final design. Carbon steel, stainless steel, hard faced, abrasion resistant flights, and various liner options are available. Contact SMH today at +1.662.869.5711 or email SC.datasheet@syntronmh.com and let our team of engineers design a system for your material handling needs. Read more about our [Link-Belt screw conveyors](#).

Applications: Bridling Coal Mine Conveyors

Syntron Material Handling was chosen as the

underground conveyor system OEM for the Deserado mine in Rangely, Colorado. Operated by Blue Mountain Energy, Inc, the mine is the sole supplier of coal to the Bonanza, UT, power plant that supplies power to six different cooperatives in five surrounding states. The company that manufactured the original conveyor brakes was no longer supporting that product, so the brakes had become difficult to maintain and were not operating correctly. Read the story of the [braking challenge and](#)

On-Time Delivery

November 2016 was the first full month where we achieved our goal of greater than 95% on-time delivery for the new generation of Syntron and Link-Belt products. We ended the month at close to 98%, which is our 2017 target.

Updated Territory Maps

We have realigned our territory coverage to better serve our valued customers. Find our most recent maps online at [Contact Us page](#).

New Channel Partners

SMH is pleased to welcome our newest channel partners:

Robert C Hall: Manufacturers Rep covering Underground mines in the states of PA, OH, & WV	Engineered Industrial Products, Inc.: Manufacturers Rep covering the states of AZ, OR, WA, NV & Northern Idaho

Find Us on LinkedIn and Facebook

Follow Syntron Material Handling on LinkedIn and “like” us on Facebook for up to date industry news, product information,

how it was solved in *World Coal Magazine* (November 2016). For more information, contact us at UG.datasheet@syntronmh.com.

application articles, tutorials, and more.

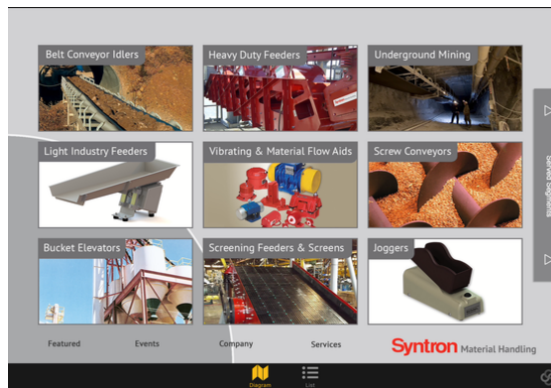

Technical Training: Syntron Material Handling University

SMH Distribution and Manufacturer's Representatives are invited to SMH University. This is a 2-1/2 day technical product training that includes group dinners. Attendance is limited to the first 25 people.

UPDATE: The February University is full but another class will be held in April. Sign up now as it is filling up fast. Call Sheena Woodruff at +1.662.869.7456 to reserve your space. A detailed agenda will be sent after registration.

SMH App Now Available

A new SMH app for iPad or Android tablets is now available for our sales teams. The app provides quick and easy access to current sales presentations, online data sheets, service manuals, catalogs, videos, new product highlights, contact info, and more. Contact your Regional Sales Manager for more information or email us at info@syntronmh.com for details.

Upcoming Shows
