- ✓ Same Day RFQ Turnaround
- ✓ Servant - Minded Organization Partnering with Preferred Distributors, OEM's and End Users
- ✓ Significant Investments in New Equipment and Processes
- ✓ Upgraded ERP and Engineering Systems to Improve Data Driven Decision Making

## Applications: Syntron Variable Frequency Drives

A leading supplier of steel products discovered its feeders and panels were not reliable. They needed frequent repairs, which led to downtime and production losses. Working with **Wajax** — a distributor of mining and excavating equipment, industrial components, and power systems — new heavy-duty VFD's were installed. Since then, they have worked with ease, increasing production and reliability. Find out more about **Syntron® VFD's**.

## Technical Training: Syntron Material Handling University

SMH Distribution and Manufacturer's Representatives will soon be back at the factory for SMH University. Our first University in February was a success and April 18-20 is completely booked. Our next training session is August 22-24, 2017. Attendance is limited to the first 25 people. Email **Sheena Woodruff** for more information and to reserve a seat.

## Get to Know Our Team

Syntron Material Handling is pleased to announce that **Allan Hummel** has joined the company as Electrical Field Service and Sales Engineer. Allan has worked in Electrical Controls and Design for many years. His experience includes Allen Bradley Control Logix Programming and PLC5 Programming. He is also experienced in electrical, mechanical, pneumatic, and hydraulic systems, as well as VFD's. Email **Allan** or call him at 385.242.8388.

---
