

Proven Engineered Products - Complete Material Handling Solutions

Link-Belt® and Syntron® Today: November 2017

Syntron® Feeders: Order Now for Year End Shipments

There's still time to order and receive Syntron® Vibrating Feeders before the end of the year. When you need to increase bulk handling productivity and improve cost-per-ton efficiency, Syntron® Vibrating Feeders set the industry standard with innovative designs. All feeders are sub-resonantly tuned to maintain stroke consistency and speed stability, delivering higher capacities at controlled feed rates.

Heavy-Duty Feeders:

Designed to handle a variety of materials, from powder to large, coarse particles. Capacities range from 25 to 4,000 tons per hour.

Electromechanical and electromagnetic models available. Download the [Syntron® Heavy-Duty Feeders catalog](#). Order today for year-end delivery. **Contact: Prentiss Bennett** at 662.869.7546; **Dennis Bazy** at 662.869.7942; **Evan Ellis** at 662.869.7526.

Light-Industry Feeders:

Whether the material is hot or cold, fine or coarse, dry or damp, these versatile units handle it with ease and efficiency. Capacities range from 1,250 pounds to 25 tons per hour. Configured for high-speed tuning to handle special applications.

New Brochures Available in Spanish & French

To better serve our global customer base, we have created new product brochures and data sheets in Spanish and French. Download your copy today:

Happy Thanksgiving!

From the SMH family to you and yours, thank you for the opportunity to serve you. Have a wonderful Thanksgiving. So our employees can celebrate with their families and friends, our offices will be closed for the holiday on November 23rd and November 24th. We will reopen Monday, November 27th. Happy Thanksgiving!

SMH = Link-Belt® + Syntron®

Syntron Material Handling is the company name that represents our commitment to innovation and quality in material handling. How we do that is based on our Link-Belt® and Syntron® brands, delivered globally from our Tupelo, MS and Changshu, China facilities.

Link-Belt®

Providing the world's largest belt conveyors for 138 years. Find out more about our Link-Belt® **Idlers**, **Screw Conveyors**, and **Bucket Elevators**.

Syntron®

Supplying the most rugged,

- **Brochure:** [Mando triple de frecuencia variable \(VFD\) montado en patín para aplicación minera para 3 motores de 250 HP uso en transportadores subterráneos o en superficie y aplicaciones de bombeo.](#)
- **Brochure:** [Syntron® Travailler avec les Trémies.](#)
- **Data Sheet:** [Fiche de données d'alimentateur électromagnétique et électromécanique.](#)

reliable, and durable bulk material flow equipment for 84 years. Find out more about the Syntron® [Heavy Duty Feeders](#), [Light Industry Feeders](#), and [Vibratory Equipment](#).

Syntron Material Handling University

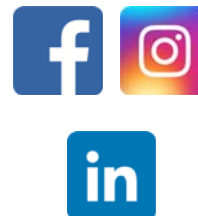

Don't forget to reserve your space for the next training session, January 30 – February 1, 2018. The deadline for reservations is November 30th. Attendance is limited to the first 25 people. Email [Sheena Woodruff](#). For more information, download the [general overview](#).
