

Proven Engineered Products - Complete Material Handling Solutions

Link-Belt® and Syntron® Today: September 2017

PACK EXPO 2017 Special Issue: Booth C-4809

Integrating High Speed Solutions

Syntron Material Handling will be exhibiting our high-speed material handling solutions at PACK EXPO in Las Vegas, NV on September 25-27, 2017. Visit us at booth C-4809. Syntron® equipment will also be on display in the following booths: All-Fill Inc., AMS Filling Systems, Compass Industrial Group, Data Technologies, Heat and Control Inc., Modular Packaging Systems, Inc., Tridyne Process Systems, Weighpack Systems, and Weigh Right Automatic Scale. Find out more about our **high-speed feeders and vibrating equipment**.

24/7 Field Services

Our thoughts and prayers are with all those affected by this year's hurricanes. For your safety, field service for Syntron® and Link-Belt® products is available 24/7. Contact our Field Service Team: **Joe DiSalvatore** at 724-288-5806, **Dave Miller** at 724-288-5810, **Frank Hagood** at 662-213-3509, or **Allan Hummel** at 385-242-8388. If you have any other questions, please contact us at 800-356-4898 or use our 24/7 Hotline for Emergency Service: 662-869-5711 (press 4). Download information on our **Field Services here**.

Vibratory Equipment and Flow Aids

Syntron® vibratory equipment and flow aids offer an efficient, cost-effective means to maintain free flow of product from bins, hoppers, and chutes. We offer three product lines -- electromagnetic, rotary electric, and pneumatic. All are compact units designed for years of high-performance, trouble-free continuous or intermittent operation. **Syntron Vibratory Equipment and Flow Aids**.

The Direct Drive Clear Advantage by Syntron®

The new Direct Drive Clear Advantage brochure gives you an inside look at the MF Electromechanical Direct Drive Feeders as compared to other brands. The Syntron DD features long life Drive Springs, isolation of components for minimum friction, easy access grease fittings, and uni-welded trough design with impact reinforcement for rugged applications. Take a look at the [Syntron DD Clear Advantage Brochure](#).

New CSA Certification for HV-10 Feeder

Syntron vibratory equipment is now CSA certified to meet strict Canadian standards. Our newest addition to the CSA certified family is the HV-10 feeder. Designed for food processes and packaging applications, the HV-10 provides high travel speeds, smooth flow, and a sanitary design that can be used in "clean in place"/wash-down applications with no risk of water ingress.
