

We're Invested in Your Success

## Link-Belt® and Syntron® Today: July 2018

### Featured Product: Syntron® Dewatering Screens

When you need the best Dewatering Screen in the industry, think Syntron. All screens are performance engineered for efficient, dependable operation. For this underground coal application, the screen will be used to transition material from one belt to another. Water will be removed as the coal travels from below ground to the surface. Contact Dennis Bazy today for all your screening applications. Email [dennis.bazy@syntrommh.com](mailto:dennis.bazy@syntrommh.com) or phone +1 662.869.7942.

### Bin Vibratory Equipment

Maintain the free flow of bulk materials from bins, hoppers, and chutes with Syntron® Bin Vibratory Equipment. Choose from electromagnetic, rotary electric, or pneumatic models. Designed for efficient product flow in dozens of applications and environments, from stainless steel feeders to packaging lines to coal bins. Find out more about our [Vibrating & Material Flow Equipment](#).

### Send Us Your Pics

If you'd like to be featured in our social media posts, send us your product photos and event highlights. Email [info@syntrommh.com](mailto:info@syntrommh.com).

### Last Call for the Summer Giveaway: BBQ Equipment & More

This is your last chance to register for our Summer Giveaway! You could find yourself with new BBQ equipment and more! It's easy. Send us a 2-3 minute video of your Syntron® or Link-Belt® equipment doing its job and we'll enter you into the drawing. Up for grabs: a KULA cooler, grilling items, and delicious Cajun spices. Email your entries to [info@syntrommh.com](mailto:info@syntrommh.com) by **July 31, 2018**.

## In the News: Underground Mining

The finishing touches are being put in place on a multi-billion dollar expansion that will create one of the world's largest underground mines in Western Canada. An expanded potash mine, it will produce five million tons annually. The mine features 130km of Syntron® and Link-Belt® conveying equipment. Read the full story at [Underground Mining](#).
