

We're Invested in Your Success

Link-Belt[®] and Syntron[®] Today: February 2019

Featured Product: Syntron Screens at AGG1

Vibratory Screens were the featured product in our 2019 booth at AGG1 this February. Our performance engineered screens assure efficient, dependable operation for even the most difficult applications. Our screens include rotary models for maximum particle separation; extra heavy duty models for high tonnage, sizing and scalping; and economical units for fast, accurate sizing. Visit the [Screening Feeders and Screen product page here](#).

SMH University 2019

Congrats to our February 2019 SMH University graduates. Be a part of our next University where you will receive hands on training for our legendary Link-Belt and Syntron products. We offer shop tours and the opportunity to meet all the key contacts within your region. The April University is filling up fast, so call today. 662.869.7456. Vibratory Screen Feeders and applications at AGG1 this month. He discussed the challenges faced in such applications as scalping, sizing, fines removal, washing, and dewatering. If you missed his presentation, you can download a copy here: [Syntron Screens Built to Fit...Built to Last](#). For additional details contact Dennis Bazy at dennis.bazy@syntronmh.com.

SMH Awarded 1000MW Coal Fired Power Plant Project in South Korea

SMH was awarded a conveyor project order for Link-Belt Idlers from Jaein Co., LTD./SFBOGO Plant Co., LTD. in South Korea. The Link-Belt Idlers are scheduled to be shipped later this year into a Coal Handling System in Cirebon city of Java island, Indonesia. Mr. Hee-Young Choi, Sr. Managing Director, Mechanical Conveying System Group, SFBOGO Plant Co., Ltd., stated, "We are extremely happy with the performance history of Link-Belt Idlers and know that we've made a wise decision in choosing to partner with Syntron Material Handling."
