

We're Invested in Your Success

Link-Belt® and Syntron® Today: August 2018

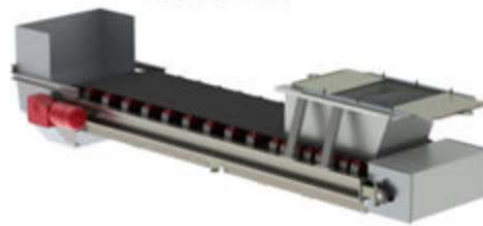

Featured Product: Troughed Belt Idlers

Link-Belt® Troughed Belt Picking and Feeder Idlers carry the load in a wide, thin layer when picking/sorting or a shallow bed of material is required to minimize degradation. Standard design features include rubber cushion center roll and steel end rolls. Also available with all-steel or all-rubber cushion rolls. For more information, download the [Belt Conveyor Idlers brochure](#) or email Dennis Bazy at dennis.bazy@syntronmh.com or phone +1 662.869.7942.

Trade Show Highlights

Our Link-Belt team was at the [Illinois Basin Coal and Mining Expo](#), an event that showcases the benefits of coal within the Illinois region. Van Younger, Carl Weeks, and Bill Kowaleski walked attendees through the

finer details of our Link-Belt mining equipment. This year the event also included Illinois Mining Institute counterparts in Indiana and Kentucky: Indiana Coal Council, Hoosiers Count on Coal, and Kentucky Coal Association, all of which promote mining-related activities. If you did not get to attend our show, check out the featured equipment at [Illinois Mining Show Product Highlights](#) or contact us today at 800.356.4898 and speak with Cindy Sanders for all your material handling needs.

SMH University: Last Training Session for 2018

Over 25 attendees are in town for the August training session. We started with a relaxing opening dinner at Harvey's in Tupelo, and then got down to business. The last session of the year is our Fall University, October 22-24, 2018. This is the place to be to learn about our best-in-class Link-Belt® and Syntron® material handling equipment. Details about registration and the agenda are [online](#). For more information, see our [Events Calendar](#).

About Syntron Material Handling

Syntron Material Handling provides material handling solutions for conveying, feeding, screening, elevating, vibratory flow aids, and mining controls of bulk product. For more information, see <http://www.syntronmh.com>
